-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5, and 6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Charles (1945420).

Charles shows a shoe protective device comprising a main body (10) composed of flexible material, an opening with an elastic hem member (14) for holding the device on the heel of a shoe, reinforcement (15), a ridge member (top rear portion shown in figures 1-3) inasmuch as the claims, drawings, and specification have shown and/or described, and a generally planar bottom member (12) as claimed.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Charles.

Charles discloses the claimed invention except for the exact material for the main body. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use a polymer foam, since it has been held to be within the

general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

5. Claims 8-13, 15, 16, and 18-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Charles in view of either Walker (4727659) or Shabazz (4662082).

Charles shows a device substantially as claimed except for an aperture in the planar bottom. Either Walker or Shabazz teaches providing an aperture in a planar bottom to accommodate low heels inside the device and allow higher heels to protrude through. It would have been obvious to provide an aperture as taught by either Walker or Shabazz in the device of Charles to accommodate high heels.

In reference to the exact materials, Charles discloses the claimed invention except for the exact material for the main body. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use a polymer foam, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

Response to Arguments

6. Applicant's arguments filed 4/13/05 have been fully considered but they are not persuasive.

In response to applicants' argument that no reference shows the amended claimed structures, it is noted that Charles shows a shoe protective device comprising a main body (10) composed of flexible material, an opening with an elastic hem member (14) for holding the device on the heel of a shoe, reinforcement (15), a ridge member (top

rear portion shown in figures 1-3) inasmuch as the claims, drawings, and specification have shown and/or described, and a generally planar bottom member (12) as claimed.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
